

Mellanox ConnectX-3 Pro EN Network Interface Card 10GbE single-port SFP+ MCX311A-XCCT

Kod producenta: MCX311A-XCCT

Architektura	10GbE
Złącze	SFP+
Okablowanie	Twinaxial (Cu) do 5m
Ilość portów	1
Typ złącza magistrali	PCI Express 3.0 x8
Format	Low Profile

Mellanox Ethernet adapters utilizing IBTA RoCE technology provide efficient RDMA services, delivering high performance to bandwidth and latency sensitive applications. With link-level interoperability within existing Ethernet infrastructure, Network Administrators can leverage existing data center fabric management solutions. Applications utilizing TCP/UDP/IP transport can achieve industry-leading throughput over 10/40/56GbE. The hardware-based stateless offload and flow steering engines in Mellanox adapters reduce the CPU overhead of IP packet transport, freeing more processor cycles to work on the application. Sockets acceleration software further increases performance for latency sensitive applications.
