

Broadcom NetXtreme BCM5720-2P Dual-Port Ethernet Server Adapter

Kod producenta: BCM95720A2003AC

Architektura	1GbE
Złącze	RJ45
Okablowanie	Skrętka kat.6a do 100m
Ilość portów	2
Typ złącza magistrali	PCI Express 2.0 x1
Format	Low Profile

Designed for today's enterprise and data center environments, Broadcom's [NetXtreme® Ethernet Adapters](#) are the ideal solution for multicore servers, delivering full line-rate throughput across all ports.

Broadcom's Ethernet Adapters combine media access controllers (MACs) and physical layer transceivers (PHYs) for integrated one-chip solutions.

Product details

- 1GbE / 2 Ports
- 16 queue pairs per port
- X1 PCIe v2.1
- RoHS-compliant

Product Features

- Maximizes performance, efficiency and scalability of servers
- Full line-rate performance across all ports
- Broad OS and hypervisor support
- Optimized for virtualization
- Energy Efficient Ethernet (EEE)
