

# Micron 9400 PRO 30.72TB, 2.5" U.3 NVMe G4, 3D TLC, 15mm, 1DWPD MTFDKCC30T7TGH-1BC1ZABYY

Kod producenta: MTFDKCC30T7TGH-1BC1ZABYY

|                        |               |
|------------------------|---------------|
| Interfejs              | NVMe G4       |
| Technologia            | 3D TLC        |
| Pojemność              | 30720 GB      |
| Maks. prędkość odczytu | 7000 MB/s     |
| Maks. prędkość zapisu  | 7000 MB/s     |
| IOPS 4kb random reads  | 1600000       |
| IOPS 4kb random writes | 300000        |
| Format                 | 2.5" U.3 15mm |
| MTBF                   | 2000000 h     |
| Endurance              | 56.064 PBW    |
| DWPD                   | 1.00          |
| Wysokość               | 15 mm         |
| Gwarancja              | 5 lat         |

## Micron 9400 NVMe™ SSD

Industry-leading capacity, superior performance, and the power efficiency to tame the most demanding data center workloads.

### The New Performance Leader for Data Center Workloads

The Micron 9400 SSD sets a new performance standard for PCIe® Gen4 storage. It delivers exceptional performance that surpasses other major competitors up to 2.3 times mixed workload performance<sup>1</sup> and improves power efficiency up to 77%.<sup>2</sup>

The Micron 9400 is available in industry-leading capacities up to 30.72TB<sup>3</sup> — which enables maximum rack-level storage density.

The Micron 9400 SSD is built to manage critical workloads like caching, online transaction processing, high-frequency trading, artificial intelligence and performance-focused databases requiring extreme performance. The Micron 9400 enables these workloads and more for flexible deployment in hyperscale, cloud, data center, OEM and system integrator designs.
