

# Intel Xeon E5-2660v3 10C/20T 2.60/3.30 GHz 25MB 2133MHz 9.60 GT/s 105W

Kod producenta: BX80644E52660V3

|                             |                                  |
|-----------------------------|----------------------------------|
| Architektura                | Haswell                          |
| Gniazdo CPU                 | LGA 2011 (Socket R3)             |
| Ilość rdzeni                | 10                               |
| Ilość wątków                | 20                               |
| Taktowanie CPU              | 2.60 GHz                         |
| Taktowanie Turbo            | 3.30 GHz                         |
| Magistrala                  | QPI 9.6 GT/s                     |
| QPI links                   | 2                                |
| Cache                       | 25 MB                            |
| Litografia                  | 22 nm                            |
| Obsługiwane pamięci         | DDR4 RDIMM<br>DDR4 LRDIMM        |
| Maksymalna wielkość pamięci | 768 GB                           |
| Taktowanie pamięci          | 1600 MHz<br>1866 MHz<br>2133 MHz |
| Ilość kanałów pamięci       | 4                                |
| Maks. przepustowość pamięci | 68.0 GB/s                        |
| Obsługa pamięci ECC         | Tak                              |
| Max CPU TDP                 | 105 W                            |

The new Intel® Xeon® processor E5-2600 v3 family product helps IT address the growing demands placed on infrastructure, from supporting business growth to enabling new services faster, delivering new applications in the enterprise, technical computing, communications, storage, and cloud. This new generation of processors enables powerful, agile data centers by supporting a Software-Defined Infrastructure (SDI) to address the imminent need of greater flexibility with higher levels of automation and orchestration. In addition, the Intel Xeon Processor E5-2600 v3 product family delivers significant benefits in performance, power efficiency, virtualization, and security. Combining these benefits with a low total cost of ownership and Intel’s acclaimed product quality, the Intel Xeon Processor E5-2600 v3 product family is a compelling solution for any organization.
